

## Webinar

# Fieldwork and new technologies applied to archaeology in Lebanon.

### Organizers:

Jwana Chahoud (UL), May Haider (UL), Dominique Pieri (IFPO).

Date: Friday 23rd April 2021, 14h-17h..

### Data Recording & management

The enormous data generated from surveys and excavations require new system of management and recording, hence the utility of digital recording, 3D technology, shared Database and open access archives. New methods, tools and digital platforms are discussed in this session for land and underwater archaeology.

*14:00-14:30: Archéologie en trois dimensions.*

Micheline Kurdy, Université Paris-Nanterre, Paris.

• *14:45-15:15: Base de donnée et l'archéologie.*

Bruno Desachy, Univ. Panthéon Sorbonne, Paris.

• *15:30-16:00: Surveying the Lebanese waters: a guide to methodology and practice.*

Lucy Semaan & Enzo Cocca, The Honor Frost Foundation-London.

• *16:15-16:45: Documenting and assessing maritime heritage in the Middle East and North Africa (the MarEA project).*

Crystal Safadi & Lucy Blue, University of Southampton-UK.
