

17.2.1 Does your university as a body have direct involvement in, or input into, national government SDG policy development - including identifying problems and challenges, developing policies and strategies, modelling likely futures with and without interventions, monitoring and reporting on interventions, and enabling adaptive management?

The Lebanese University as a public institution for higher education, the only one in Lebanon, was involved in the Lebanese governmental strategy related to the 17 goals of sustainable development. Thus, the Lebanese University established several cooperation agreement with local and international NGO, Lebanese ministries and public institutions, in all areas and sectors, in particularly in sector involved by the sustainable development goals and related to health, education, industry, agriculture, climate change, gender equality, justice and strong institutions, as we can identify below, so the university could respond to the government and ministries needs regarding the higher education field , by providing studies, consultation, training experts, internship, and all the academic support in the limit of its capacities, knowing that the Lebanese University is funded by the government , so it has limited financial capacities.
